Summer Series 2026

Join us for S.T.E.A.M. and nature fun for the Summer Series at Green STEAM Lab!

Explore how Science, Technology, Engineering, Arts, and Math work together as we review the different principles of S.T.E.A.M through games, experiments, crafts, and more! Weather permitting, we will spend time indoors and outdoors. Our half-day program (8:45 am-12:00 noon) is open to children ages 3-9, and our full-day program is open to children ages 5-9. Aftercare is available daily until 6 pm (ages 5-9).

We offer daily and weekly registration options. Our half-day weekly program for all groups is hosted through the Town of Orangetown Parks and Rec Department.

Location: St Thomas Aquinas College (125 Route 340, Sparkill, NY 10976)

Maguire Hall (drop off and pick up from classrooms)

3 age groups

RM #TBA - Ages 3+ 4 (bathroom independent)

RM #TBA - Rising K+ Rising 1

Summer Series 2026

Weekly Themes:

June 29 July 3- General STEAM CAMP

Join Green STEAM Lab as we explore how Science, Technology, Engineering, Arts, and Math work together! Each day we will review a different principle of S.T.E.A.M. through games, experiments, crafts and more!

July 20- July 24- Space Adventures

Participants will turn into mini astronauts, learning about outer space in a fun, engaging way. Through hands-on activities, crafts, and discussions participants will learn about everything in outer space!

July 27 - July 31- Eruptions and Explosions

Learn about Eruptions and Explosions! Participants will explore the science behind eruptions and explosions through hands-on experiments and demonstrations.

August 3- August 7- Sticks, Bricks, and Structures

Have you ever wondered about different structures? Learn and build structures using various materials to understand why a bridge may sway in the wind and why skyscrapers are so tall!

August 10- August 14- Mixed Masterpieces

Explore the world of art! Participants will learn about various artists worldwide, and work with multiple styles, techniques, and mediums. Grades 2-4 will work with 3-D pens!

August 17- August 21- Cool Cardboard Crafts

You see a box, we see a canvas! Participants will create upcycled cardboard creations- the possibilities are endless! Participants will be encouraged to think out of the box!

August 24- August 28- Cinematic Science

Learn about stage and film production! Participants will engage through hands-on activities and crafts like circuit mazes and instrument making and playing, sun and photo paper experiments, games like charades and pretend play.
